ABOUT US:

We believe that people with Down syndrome, Autism, Cerebral palsy and other developmental disabilities have tremendous potential. That's why we've created a lifelong plan of services to provide our participants with homes, jobs, recreation and a chance to participate in the world around them. For over 48 years, we've worked with our participants, their families, and friends to ensure that adults with developmental disabilities have the opportunity to live and thrive in Oregon. Today we serve over 350 people in 22 settings in Washington and Clackamas Counties.

OUR MISSION:

It is our mission to enhance the lives of individuals with developmental disabilities by helping them reach their highest potential through training, education, employment, housing and social opportunities in safe, healthy and stimulating environments.
